**What are we doing?:**

We will introduce the children to fun-filled activities to encourage the use of creative activities in discovering their Spirituality.

We want to encourage self-engagement and group activities to enrich new friendships

**How will we do this?:**

*When was the last time you connected with your friends?  
 How did you do that?*

*We want to encourage face to face conversation and group discussion. Leave the "Avatar" at home!*

*We will talk to real people with real words and have real conversations that build friendships... and sing real songs!!*

**Calling all Volunteers**

This is our first ever Summer Camp and it is a HUGE undertaking. Sister Delia Rubio is digging REALLY deep into her own time available, just to plan this Camp. She will need helpers to make it happen!

If you are between the ages of 18 and 25, and would be interested in spending two weeks of your time planning and helping run our Summer Camp, please contact Sister Delia at the Parish Office.

Our Summer Camp will leave your child with a feeling of achievement and community. Our plan to maximize the benefits of our multicultural environment will allow the children to experience every facet of God's love in our community, as well as having them learn how to communicate in a group setting IN REAL TIME!!
